PROFESSIONAL SUMMARY

Driven B.Tech Computer Science Engineering student at Barak Valley Engineering College with demonstrated experience in AI/ML and Computer Vision. Completed a prestigious Summer Internship at IIT Guwahati's Technology Innovation Hub, building a Deep Learning pipeline for MRI Brain Tumor Segmentation. Proficient across Python, Java, C/C++, React, and modern AI frameworks. Seeking challenging opportunities to apply analytical thinking and technical expertise to impactful projects.

PROFESSIONAL EXPERIENCE

Summer Research Intern

Jul 2026 - Present

Technology Innovation Hub, IIT Guwahati

Guwahati, Assam

- Engineered a Deep Learning pipeline for Brain Tumor Classification & Segmentation from MRI scans
- Applied advanced data preprocessing, augmentation, and model evaluation techniques on medical imaging datasets
- Collaborated with faculty mentors in a professional research environment at a premier national institute

[Python]

Social Work Intern

Jul 2025 - Aug 2025

Mother Old Age Home

Guwahati, Assam

- Coordinated daily operations and organized structured engagement programs for elderly residents
- Conducted field observations and compiled activity reports for institutional review
- Strengthened interpersonal communication and team collaboration through community service

[Social Work]

EDUCATION

Bachelor of Technology - Computer Science Engineering

Aug 2024 - Present

Barak Valley Engineering College

Assam, India

- Relevant Coursework: Data Structures & Algorithms, AI/ML, Computer Vision, Database Systems, Web Development

Senior Secondary (AISSE) - Science (PCM)

Aug 2021 - May 2023

Sai Vikash Vidya Niketan

- Aggregate: 73%

High School (HSLC) - General Studies

Feb 2019 - Jul 2021

Emmanuel English Higher Secondary School

- Aggregate: 73.33% | Class Captain | Science competitions & sports representative

TECHNICAL SKILLS

Languages

Python | C | C++ | Java | JavaScript | SQL | HTML | CSS

Frameworks & Tools

React | TensorFlow | OpenCV | NumPy | Pandas | Git | GitHub

Domains

Artificial Intelligence | Machine Learning | Computer Vision | Deep Learning | Data Analysis

Soft Skills

Problem Solving | Team Collaboration | Communication | Critical Thinking

KEY PROJECTS

AI Invisible Cloak2025

Personal Project - Computer Vision

- Built a real-time invisibility effect using HSV color detection, background subtraction, and frame masking with OpenCV

[Python]

MRI Brain Tumor Detection2026

IIT Guwahati Internship Project

- Designed a CNN-based deep learning model for accurate detection and classification of brain tumors from MRI scans

[Python]

FoodScan2025

Personal Project - Full Stack

- Developed a food scanning and nutritional analysis application with real-time API-driven data retrieval

[React]

Student Admission Portal2025

Academic Project - Desktop Application

- Engineered a Java-based desktop application to automate and streamline the university admission workflow

[Java]

Digit Recognition from Scratch2025

Personal Project - Neural Networks

- Implemented a complete handwritten digit recognition system from scratch without external ML libraries

[Python]

LICENSES & CERTIFICATIONS

30-Day Summer Internship - Brain Tumor MRI SegmentationJul 2026

Issued by Technology Innovation Hub, IIT Guwahati

Data Analysis with PythonApr 2026

Issued by IBM

Claude AI: From Basics to BuildApr 2026

Issued by PW (PhysicsWallah)

Generative AI for AllApr 2026

Issued by PW (PhysicsWallah)

Python 101 for Data ScienceApr 2026

Issued by Cognitive Class (IBM)
